

Passive Subwoofer
Features

- ▶ Deep Bass Options: 5.25" and 8" woofer sizes deliver enhanced low-frequency extension, boosting bass response for warmer and richer background music.
- ▶ Flexible Input Options: Built-in high-quality transformer with power selector, supporting both 100V line and low-impedance stereo inputs for versatile system integration.
- ▶ Equipped with passive radiator for deeper, richer low end (5" model)
- ▶ Flexible Installation: Support floor, wall, and ceiling installation, ideal for commercial and public spaces.
- ▶ Slim Wooden Enclosure: Ultra-thin wooden cabinet design in black or white finish delivers natural sound and long-lasting durability.
