Stainless Steel Horn Speaker

Features

- ▶ Precision-crafted from 304 stainless steel for durability in harsh operating environments.
- ▶ A protective coating helps resist moisture and acidic or alkaline corrosion, supporting reliable long-term outdoor use.
- ▶ IP66 Waterproof & Dustproof ensure reliable performance in harsh outdoor environments
- ▶ Delivers clear sound and consistent acoustic performance across the operating frequency range.
- ▶ High sensitivity and strong sound output support sound transmission over extended distances.
- ▶ Multiple power taps accommodate different installation requirements.
- ▶ Ideal for petroleum facilities, chemical processing plants, marine applications, and nuclear power facilities.

Model	HSS-304
Power at 100V	30W/15W/10W/5W
Maximum Power	45W
Frequency Response	380Hz-8KHz
Sensitivity (1 W / 1 m)	106dB
SPL	121dB
Housing Material	304 stainless steel
N.W./G.W.	3.1kg/3.25kg
Dimensions (HxDxW)	Dia 280x260mm
